

McConnell Dowell: *Built to Last*

Written by: Abigail Phillips // Bryan Giles >>>

Formed in 1961, McConnell Dowell is a major engineering, construction, building and maintenance contractor delivering infrastructure to the building, mining, oil and gas, power, petrochemical, social and public infrastructure, transport and water sectors.

The Group has a broad construction offering with complete multi-discipline capability in building, civil, fabrication, electrical and mechanical works and are engineering and construction specialists in pipeline, tunnelling, marine and rail construction.

With the ability to deliver end-to-end projects, the Company takes great pride in its engineering excellence in three key industry sectors: building, infrastructure and resources. Under the umbrella of

those three core competencies, McConnell Dowell operates six primary business units: Australian Operations, Overseas Operations, Pipelines, Tunnelling, Built Environs, and Electrix.

The Company also runs a specialist Strategic Projects Group, which focuses on mega-projects and draws all the units of the business together to provide clients with bespoke, end-to-end solutions. The Company is headquartered in Melbourne, however it also operates more than 23 regional offices across Australia, Asia, New Zealand, Pacific Islands and the Middle East. Having a regional presence helps McConnell Dowell provide excellent project based solutions; it has local suppliers, contacts and above all knowledge.

Ewen Hendren

Dozer Hire Pty Ltd

**GAS & MINING CIVIL CONSTRUCTION
BULK EARTHWORKS
LAND CLEARING
PASTURE RENOVATIONS & REHABILITATION**

We specialise in clearing gasline & waterline Right of Way (ROW).

STATISTICS

McCONNELL DOWELL

COMPANY NAME: McConnell Dowell

Formed in 1961, McConnell Dowell is a major engineering, construction, building and maintenance contractor. With the ability to deliver end to end projects, we pride ourselves on our engineering excellence in three key industry sectors:

Building: Commercial and Industrial, Social and Public, Defence.

Infrastructure: Power, Transport, Water.

Resources: Mining, Oil and Gas, Petrochemical.

Approaching projects with creativity is what makes us stand out from the crowd, and the consistent peer-recognition through winning engineering and environmental awards is testament to that. Our people represent the best and brightest in their fields. We're proud of the passion and success of our team in striving to be the industry leaders, and it shows in our results.
